SUMMARY

MERN stack developer with 1 year of experience building scalable backends using Node.js, Express.js, and designing RESTful APIs.Skilled in MongoDB, MySQL, PostgreSQL, and integrating AI solutions, with solid React.js and Tailwind CSS skills for full-stack features.Strong problem-solver and team player, committed to delivering robust, efficient, and secure applications.

EXPERIENCE

Developer Bazaar Technologies Indore**,** MERN Stack Developer   March 2025 - Present

- Developed backend APIs for an e-commerce application using Node.js, PostgreSQL, and Redis to ensure secure and efficient data handling.
- Built and maintained an event management platform's backend using Node.js, Express.js, and MongoDB.
- Designed and implemented backend services for a transportation app using Node.js and MySQL for reliable data storage and retrieval.

OnePixel soft Jaipur, FULL STACK DEVELOPER   Sept. 2024 - Dec 2024

- Worked as a Full Stack Developer, gaining 4 months of industry-level experience
- Worked on a *Zari* website, a women's shopping website, using React.js, Express, and Node.js.

EDUCATION

- Bachelor of Computer Applications **(Full Stack Development)**   Aug 2022 - 2025 April
  Poornima University, Jaipur, Rajasthan
  CGPA: 7.3
- Master of Computer Applications (**Computer Science**)   June 2025 - 2027 May
  Sanghvi Institute of Management & Science

SKILLS

- **Front end** - HTML, CSS, JS, React.js and Tailwind CSS
- **Back end** - Node.js, Express.js, RESTful API development, AI API integration, Redis (caching and session management)
- **Database** - MongoDB, MySQL, PostgreSQL, database design, and optimization
- **Tools and Technologies** - Visual Studio Code, Postman, Git and GitHub, Figma, Agile, and Scrum collaboration tools
- **Soft Skills** - Team Collaboration, Effective Problem-Solving, Clear Communication, Adaptability

PROJECTS

1 . Doctor Appointment Booking System - **ACUHEALTH**

- Designed and developed a Doctor Appointment Booking System using the MERN stack with a responsive UI, separate admin and doctor panels, efficient scheduling, patient record management, and secure JWT-based authentication.
- Implemented RESTful APIs, ensured smooth user experience with robust backend logic, and focused on data security and performance optimization throughout the development process.
